

Summer Library Reading

Each student in the elementary school is required to read two books from the appropriate Library Reading List during the summer. The student is to use the book list from the grade level that he/she is going into next school year. The student (with help from the parent) is to complete and return the two certificates below to next year's classroom teacher.

Enjoy your books!

The Elementary Faculty

Library Reading Program

I certify that my child, _____, has read the following book, _____ from the Library Reading List (for the year your child is going into), and that we have discussed the book.

Parent

I understand that two books are required to be read during the summer.
